Item	Discussion	Action
1	<p>Led by Heather, UCM provided an overview of the Psychological Sciences (PSY) goals and key interests in the new building.</p> <p>PSY is comprised of Developmental, Health, and Quantitative Psychology. It is focused on community-based research and data analysis. It does not currently have a clinical program. Still, PSY will bring community members to campus for research at the new building. Parking availability will be relevant to the planning. Furthermore, ground floor access by visitors will be necessary. However, faculty offices are not required</p> <p>PSY considers itself a true 'hub science' because it works in tandem with many other disciplines. Collaboration is essential.</p> <p>Growth is anticipated to jump dramatically, even as soon as Fall '21, with an anticipated enrollment of 55 graduate students. It shares space with others, but unfortunately, PSY reports it is out of space.</p>	
2	<p>SCB would like to hear about spaces that the sub-committee feels would be good precedents that relate to the planned new program. A list of recommendations from UCM would help SCB/GLP in its program efforts.</p>	Sub-Ctte to recommend instructional spaces to visit or research.
3	<p>Using a spreadsheet tool, SCB/GLP reviewed the program at a high level as it understands it, based on its analysis of the Regent's approved program.</p> <p>A few sample program spaces were discussed, to provide the sub-committee with a sense of the level of detail SCB/GLP would need to delve to suit their program.</p>

UC Merced HBS Bldg Meeting Minutes

4	SCB/GLP requested that the sub-committee report on the following within one week: <ul style="list-style-type: none">• Confirmation that the program spaces identified in the spreadsheet are generally correct. Identify missing or unanticipated program spaces and quantities.• Prepare responses to questions posed which would aid SCB/GLP in better understanding what criteria should be included in the detailed programming of these spaces, including vision for the particular spaces noted.• Identify who should participate in detailed space programming sessions to provide SCB/GLP with input on the specific space needs.	Sub-Ctte
5	Allison will distribute the program spreadsheet to the sub-committee, assist with the above requests, and help schedule the detailed program breakout sessions.	UCM
